

For Immediate Release

March 18, 2020

As we face the disruption that the Covid-19 (Coronavirus) pandemic is having on our personal and professional lives, I wanted to share with you the intentions at the Wiha Tools Americas. Our #1 priority is the wellbeing of our employees and their families.

Our immediate goal is to minimize the disruption to our respective businesses, but more importantly, we are working to prevent the spread of the Coronavirus. Like many companies, we have installed work from home programs, limited meetings, and stopped all foreign and domestic travel. We are also reducing the number of people working a specific shift or in a particular department. Currently, we do not have plans to suspend operations nor modify our shipping schedule. However, should temporarily halting the business become necessary, we have established extensive contingency plans that will allow Wiha Americas the ability to restart services quickly.

The Coronavirus has momentarily stressed all our lives and challenged business. Please join me by remaining optimistic during these difficult times, but also addressing the seriousness of Covid-19.

Our lives will be back to normal soon, I promise.

Patrick W. Di Perno

Divisional President & Managing Director
